Organised Storage

Line Feed Trolleys

Take the parts to the job! These line feed trolleys, are used in assembly shops, or as a free-issue mobile store. They have double-sided louvre panels to enable our small parts storage containers to hang from them directly or to work in conjunction with bench assembly equipment. They can be located to enable immediate transfer of a number of containers in one handling operation. It accommodates up to 400kg (670w), 800kg (1320w) & can take up to 7 sizes of containers. There are two widths 670 & 1320w. Extra louvre panels for walls or shelving can be ordered individually & bins are ordered separately.
