

# Stand on Tug - Drover

## Innovative WH&S Solutions for Industry

Drover is an Australian made, silent battery operated Stand on Tug which is easy and simple to operate, with precise joystick control, variable speed, maximum traction, stability, tremendous battery capacity & safe. The Stand on Tug dual drive system, has been specifically engineered to offer consistent performance day in day out with 2000kg pulling power. Compact design and engineering allows the Stand on Tug mover easy handling with heavy long loads in tight spaces & to travel long distances, effortlessly. It can enter small lifts confidently because of the compact design. The unique adaptive hitching mechanism provides a secure attachment to various trolleys. The weight of the trolley over its own drive wheels, give the utmost grip and adhesion to the ground. The result is smoother, safer, and easier operation in tight spaces under heavy loads.

The automatic security brake feature, allows you to take your hand safely off the throttle control & tug and trolley will come to an immediate stop, activating the park brake. The Stand on Tug is Ideal for hospitals, laundries, commercial food operations, factories, warehouses, airports, maintenance facilities and shopping centres. Using the Stand on Tug mover increases staff productivity and morale immediately while eliminating the risk of injury through physical exertion, strain and fatigue.

Drover is supplied with flashing lights in each corner & a strip of LED across the front. There is a warning "horn" & audible reversing signal. The removable on/off key insures safety & prevents unauthorised use.

It is optionally available with a "bolt on" seat, when the operator prefers a non-standing position.

**Pulling Capacity:** 2000kg

**Length:** 950mm

**Width:** 650mm

**Overall Height:** 1250mm

**Platform Height:** 250mm

**Ground Clearance:** 45mm

**Top Speed:** 6km/hour (Variable)

**Charge times:** 8 hours

**Battery Charger:** Fully automatic

**Travel Distance:** 30-40km achievable dependent on load levels

**Control System:** Precise joystick control

**MATERIALS**  
**Handling** *Working with ease...*
