

The Best Technology in Truck Lighting

NEW!
HALOGEN DOCK EYE
Superior Extended Bulb Life
75% Longer

Proper lighting can increase safety and minimize product and trailer damage— saving you money! Dock Eye's advanced technology illuminates the entire trailer. Its versatile multi-position flexible tube resists overhead door impact. Dock Eye's computer fan cools the bulb for extended life.

OLD TECHNOLOGY

Old technology truck lights are prone to damage from overhead doors and fork lifts.

NEW TECHNOLOGY

Dock Eye's unique flexible tube design withstands sudden impact, and easily adjusts to any position.

Dock Eye provides twice the light of old technology dock lights. The difference between old technology dock lights and Dock Eye is like the difference between night and day.

OLD TECHNOLOGY

FAN COOLED

Model 421 Features –

- Easily Positioned
- Durable Construction
- Fan Cooled
- Circuit Breaker Switch
- Grounded Plug
- Stainless Steel Flexible Tube
- Welded Steel Housing
- Protective Bulb Shield
- Spring Mounted Bulb with safety lens
- Coated Bulb Standard (required in many food manufacturing or distribution locations)

Twice the Light Output

Withstands Sudden Impact

Options –

- **Mounting brackets** – to mount to any round pipe bollard (includes clamps).
- **Dock Eye®** can also be automatically activated by SafetySignal™ or Smart Chock™.

Product Specifications–

- 230 volt, 50-60Hz
- Amperage Draw 1.4
- 117 Watt Low Voltage Halogen Bulb
- Adjustable/Flexible 1065mm Tube
- Step Down Power Transformer
- Computer Fan
- Circuit Breaker Switch
- Pre-drilled Holes for easy installation
- One Year Warranty (bulb excluded)
