## Dangerous Goods Storage

### Flammable Safety Storage Cabinets

Flammable storage cabinets provide a safe, close-by, secure timesaving method for storing all types of dangerous chemicals and help you to maintain good housekeeping practices.

All of these cabinets are fire tested to comply with the FM rating, something no other cabinet sold in Australia can claim, they also not only comply, but also exceed Australian Standard AS 1940. They help companies by providing product near to the workplace thus avoiding the time consuming and often risky practice of collecting from an outside storage facility.

Code	Description	Weight Kg	H x W x D mm
<b>Drum Cabinets - Yellow Powder Coated Finish</b>			
DAU25662	205litre horizontal drum, 2 door	168	1385 x 765 x 1225
D08800	Drum trolley for DAU25662

**Drum Storage**  
Code **DAU25662**  
Holds a 205litre horizontal drum & has 2 doors  
**Trolley is ordered separately**

**Drum Storage**  
Code **DAU25701**  
Holds a 205litre vertical drum, has 2 Doors & rollers

**Safety Can Storage**  
Code **DAU25302**  
Capacity: 160litres with 2 shelves for 6 x 20litre drums

**Safety Can Storage**  
Code **DAU25452**  
Capacity: 250litre with 3 Shelves for 9 x 20litre drums

**Under Bench Storage**  
Code **DAU25748**  
Capacity: 100litres with 2 Shelves for drum storage

**Compact Storage**  
Code **DAU25714**  
Capacity: 30 Litres with 2 shelves

Patented concealed self-close mechanism provides obstruction free access to top shelf space. Self-inducing doors guarantee they will close in sequence and assure a tight closure from top to bottom (on self-close models).

Rounded safety corners on doors reduce accidental nicks or cuts and potential hand injury.

Haz-Alert™ Reflective labeling provides high visibility in the dark under fire conditions or power outage when illuminated by a flashlight beam. Patent Pending.

Fusible links hold doors wide open and melts at 74°C for automatic closure (on self-close models).

Minimal air-gaps provide better protection.

Double wall thermal barrier. 1.2mm sheet steel thickness with 40mm wall spacing.

Easy close, self-latching doors.

Fully-welded (not riveted) construction holds squareness for longer life, offering greater protection in a fire since air gaps are reduced.

Continuous piano hinge provides smooth closure.

Built-in grounding connector (on outside side panel) for easy grounding.

Dual vents with builtin flame arresters strategically placed at bottom and opposite top are welded, not screwed in place.

Durable and chemical resistant, hybrid leadfree powder coat paint finish, inside-and-out, retains high gloss look and minimizes the effects of corrosion and humidity.

Each cabinet is provide standard with 150 mm deep sump to contain spills or leaks within the cabinet.

Welded shelf hangers interlock with shill to offer maximum "no slip" stability... and no flimsy brackets to lose.

Exclusive U\*Loc™ Padlockable Handle. Optional padlock allows for extra security and keycoding multiples for convenient access. Flush paddle handle with slip resistant grip offers easy fingertip operation and reduces dangerous "catches" from passing traffic. Double key set included for keyed lock. Patent Pending.

Haz-Alert™ Safety Band. Firefighter friendly reflective band at bottom alerts firefighters when crawling in smoke - filled areas. Patent Pending.

Stainless steel, three-point bullet self-latching system provides easy, fail-safe, positive door closure with increased heat resistance.

Exclusive SpillSlope™ safety shelves directs spills to back and bottom of leak proof sump. Heavy-gauge galvanized steel shelves are bi-directional and easily adjust on 76mm centers for versatile storage.

Adjustable leveling feet for stability on uneven surfaces.

Adjustable leveling feet for stability on uneven surfaces.
