## Polyethylene Lockers

### Polyethylene Lockers

These lockers are graffiti resistant & ideal for mining sites, dressing rooms, sports facilities, schools & many industrial or office applications. All metal components are stainless so they are also rust free & impervious to salts & most acids. They are also, strong, stable, light, impact resistant and capable of modularly interlocking & are easily installed or relocated, indoors or outdoors. All have double skin doors, are UV stable and come in a full range of colours. Originally manufactured for industries where damp clothing may be stored, these clean, hygienic & good looking lockers are capable of being ducted for warm or ambient air circulation. Optional black bases or sloping, security tops are available. Full height lockers SO24 & SO28 have "L" handles with 3 way locking for added security. All other lockers are supplied with stainless steel plate, ring pull & are pad-lockable. Padlocks are optionally available.

| Code   | Doors | Type  | W x D x Hmm      | Shelf/hanger |
