

LIFTING AND HANDLING PLATFORM SPECIFICATIONS

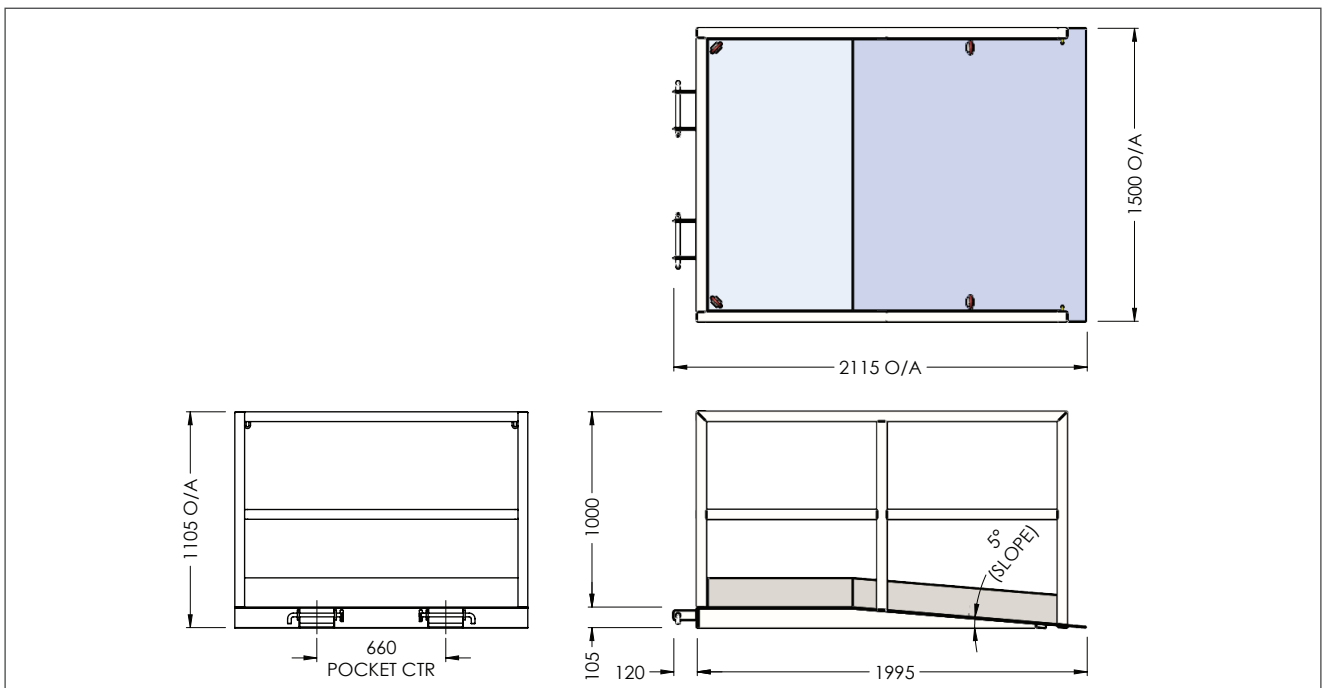

The LHP2000 Ramped Goods Platform is designed to safely load and unload heavy plant equipment and machinery by forklift. Perfect for use in the industrial and rental industry where awkward, heavy equipment and machinery is transported and loaded daily.

Features:

- Allows easy loading and transport of bulky goods, equipment and machinery
- Ramp access for ease of loading & unloading
- Fork pockets fitted for transport and placement by forklift
- 4 flip up lashing points to safely secure various load sizes
- Kick plates help prevent objects from falling off the platform
- Steel frame and safety chains for added load safety during transport
- Non-slip tread plate floor and ramp
- Reinforced underside to eliminate steel fatigue
- Enamel paint finish
