

BULK BAG LIFTER MBBP2000 SPECIFICATIONS

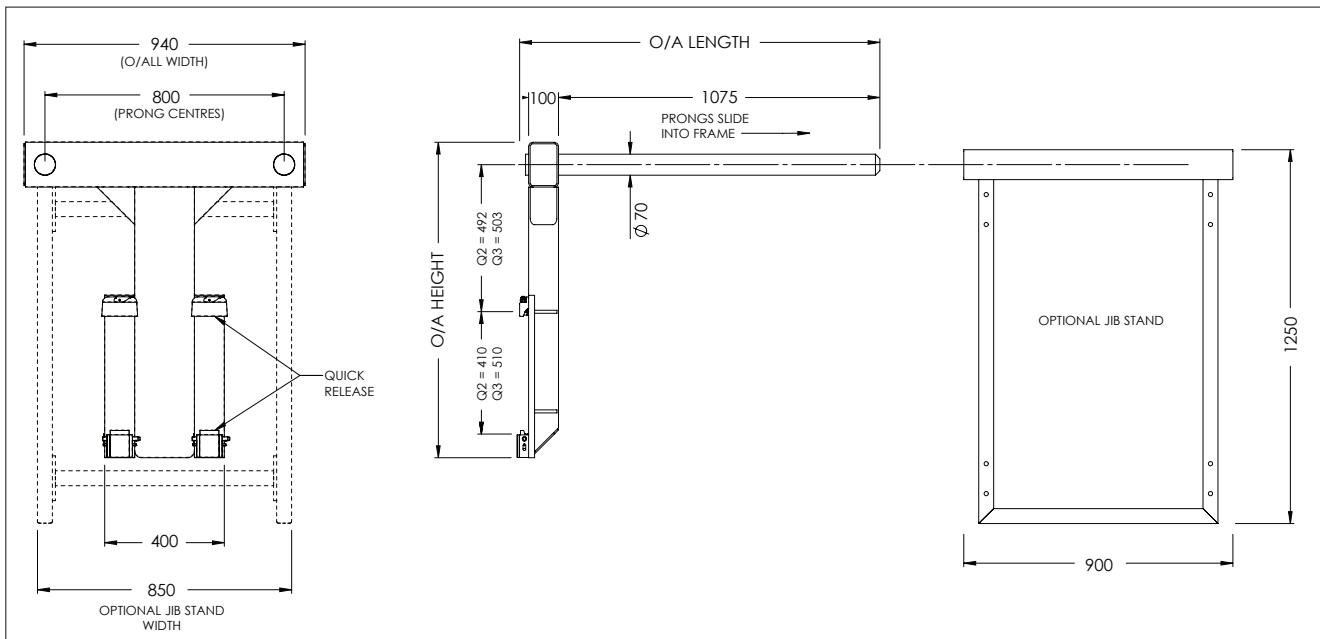

The MBBP2000 (QR) Bulk Bag Lifter with quick release bottom hooks for easy fitment is designed for lifting and moving loaded bulk bags by forklift.

Features:

- Allows bulk bags to be easily moved around the worksite or loaded into a container
- Two prong carriage mount jib simply slides into the lifting straps
- Operator can disengage the bulk bag without leaving their seat
- Spring loaded locators and quick release bottom hooks allow fast connection to a forklift
- Suits Class II or III forklift carriage types
- Optional jib stand MBBP2000S available for ease of storage and fitment of lifting jib
- Enamel paint finish
