Technical data sheet
Type: 684000 Unloading conveyor short: unloading of tyres
Electrically operated conveyor with height adjustable platform

Technical data
- Adjustable lift height: 825mm
- Belt speed: variable from 0,3m/s - 0,7m/s
- Min. ambient temperature: -15°C
- Max. ambient temperature: 50°C
- Protection class: IP54

Dimensions
- Length transport position: 6200mm
- Length working position: 6700 - 16700mm
- Width working platform: 1800mm
- Conveyor belt width: 601mm
- Weight: approx. 820kg

Electrical data
- Network voltage/ frequency: 380V - +/-5%, 50Hz +/-2%
- Power: Max. 2,0KW / rated power 1,6KW
- Wall device plug: CEE 400V, 16A, 5Pin (3L+N+PE)
- Motors: SEW 380V
- Belt: modular belt
- Hydraulic power unit: 380V
