

BATTERY ELECTRIC VEHICLE

HS

CE
CERTIFIED

INDUSTRIAL LOGISTICS

An electric transporter with a work capacity over 8 hours, suitable to move and load up to 500 kg.

HS is very handy and suitable to be used in productive plants, warehouse and in any other materials handling application. It can be equipped with interchangeable skips or crates.

The tilting system gives the possibility to equip and change rapidly different types of accessories depending on the expected use.

The electronic system that controls the forwarding and reverse speed is guided by an accelerator, making the work easier and safe even in narrow places.

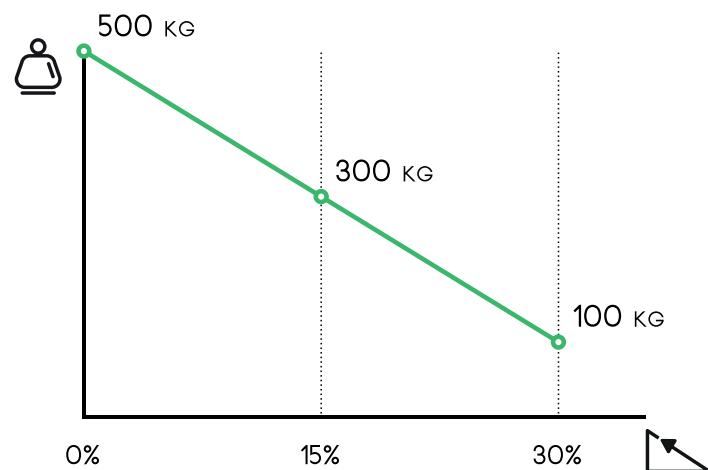

PERFORMANCES

5 KM/H

500 KG
