Zallys R6 is a 4 wheel off road tow tug that has been designed to be used on difficult grounds like sand or mud. It is equipped with 2 motors. It's been designed to load up to 800 kg on flat grounds and has a towing capacity of up to 6000 kg. It can be equipped with several accessories that can be easily interchanged. The 2 motors have an electro-magnetic brake that automatically engages when the power is turned off.
