

# BULK BAG FILLING FRAME SPECIFICATIONS

The MSKX100-WH Bulk Bag Frame is designed to hold open a bulk bag or when combined with the optional MSKH100 Bulk Bag Hopper, it can be used as a bulk bag filling or dispensing station.

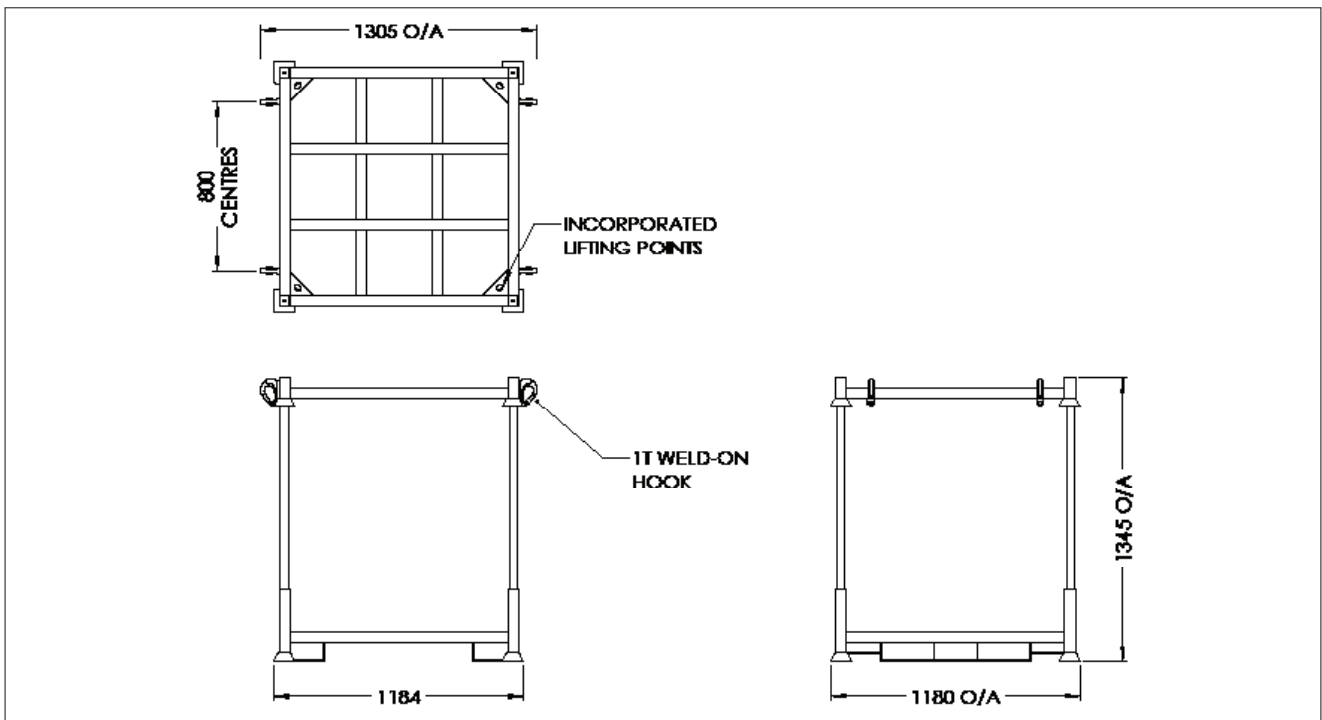

## Features:

- Allows bulk bags to be held wide open for ease in filling
- Welded bag restraining hooks safely secure the bag in position
- Metal base frame keeps bulk bag off the ground, protecting it from damage and other hazards
- Fork stirrups fitted for transport by forklift
- Stacks 3 high when empty and 2 high when fully loaded
- Optional Bulk Bag Hopper MSKH100 with slide valve (also available in stainless steel), allows dispensing or filling
- Custom leg lengths available on request for different bag types
- Zinc finish

Supplied standard as 'flatpack' for on-site assembly.
