The CKM10 Concrete Kibble is designed for easy transfer of concrete on site by overhead crane.

Features:

- Lightweight, yet heavy duty
- Adjustable chute allows discharge from the bottom or side of unit
- Lever operated from either side, for flexibility of use
- Fitted with fork pockets for transport around the work site
- Hydraulic model (CKM10H) available to remotely control kibble
- Also available in 0.5 and 1.5 cubic metre capacity models
- Optional Concrete Funnel (CKUF200) for filling wall cavities, columns, or narrow formwork
- Designed, certified and compliant with relevant Australian Standards
- Supplied with comprehensive instructions, including risk assessment documentation
- Enamel paint finish
