

# SINGLE IBC BUNDED PALLET DMXP6001 SPECIFICATIONS

All bulk containers (IBC's) must be banded to comply with regulations, which means the band must contain the largest container should it spill. This unit offers a cost effective and space saving solution, without compromising quality.

- For storing 1 x 1000L IBC
- Exceeds Australian standards with capacity of 1300L
- Corrosion resistant
- Manufactured in Australia
- Engineer certified SWL of 1650Kg

## Heavy duty FRP grating:

- Not subject to temperature stress & deflection.
- Anti Slip
- Low profile
- Zero 'pooling' area for dangerous chemicals
- 805 x 1220 x 25 @ 12Kg

Super heavy-duty Polyethylene construction for harsh climates

Solid tapered lip for maximum rigidity & longevity

Forklift & pallet truck friendly

Nestable for transport

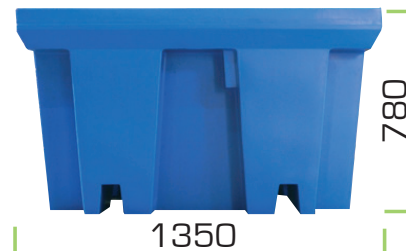

## SPECIFICATIONS
