

MATERIAL LIFTER ML150 DATA SHEET

Maximum Load Capacity - 150kg
Lifting height - 1050 mm

- Stylish Design
- Easy to transport - folds and unfolds in 30 seconds
- Handling accessories for different loads:
 - Tray for general lifting
 - Forks for small pallets, boxes etc.
 - Gas Cylinders
- Patented, hand winch locks the load at any height
- Steel lifting cable inside mast for safety (prevent pinch points)
- 10" puncture proof, light-weight wheels provide good traction and smooth ride even over rough terrain
- Mast made from heat-treated aluminium extrusion that gives great strength to weight ratio

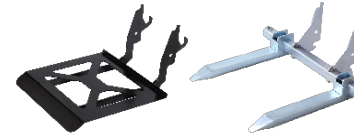

Patented Silent Winch

Stylish and easy to operate even when lifting 150kg. Automatically locks load at any height.

10" solid, puncture proof wheels

Easy to transport even on rough terrain.

Accessories

Standard Platform
Optional Forks
Cylinder/Gas Bottle package

Foldable design

30 seconds to fold and unfold without tools. Ideal for transport in work and delivery vehicles like Utes, Vans and Trucks. Easily stored in a warehouse.
