

# FORKLIFT / CRANE GOODS CAGE MCSPN-02A

The MCSPN-02A Crane Goods Cage is designed to safely store and transport 2 Tonne of loose or palletised goods using either a Forklift or Crane.

The full width gate allows 1200 mm square pallets to be placed inside the cage if required.

Stacking feet underneath the cage allow it to be stacked on top of each other – 3 high when empty, 2 high when full.

4 point lift crane lugs and fork stirrups are fitted for ease of moving the cage around the work site.

Heavy duty construction suits a 2 tonne load capacity. Also available in a 1 tonne capacity model.

Optional single point lifting frame (MCSPN-CL) available to suit lifts where head height is an issue.

Supplied standard as a fully assembled unit.

Zinc finish.

Fully opening front gate

Fully opening front gate

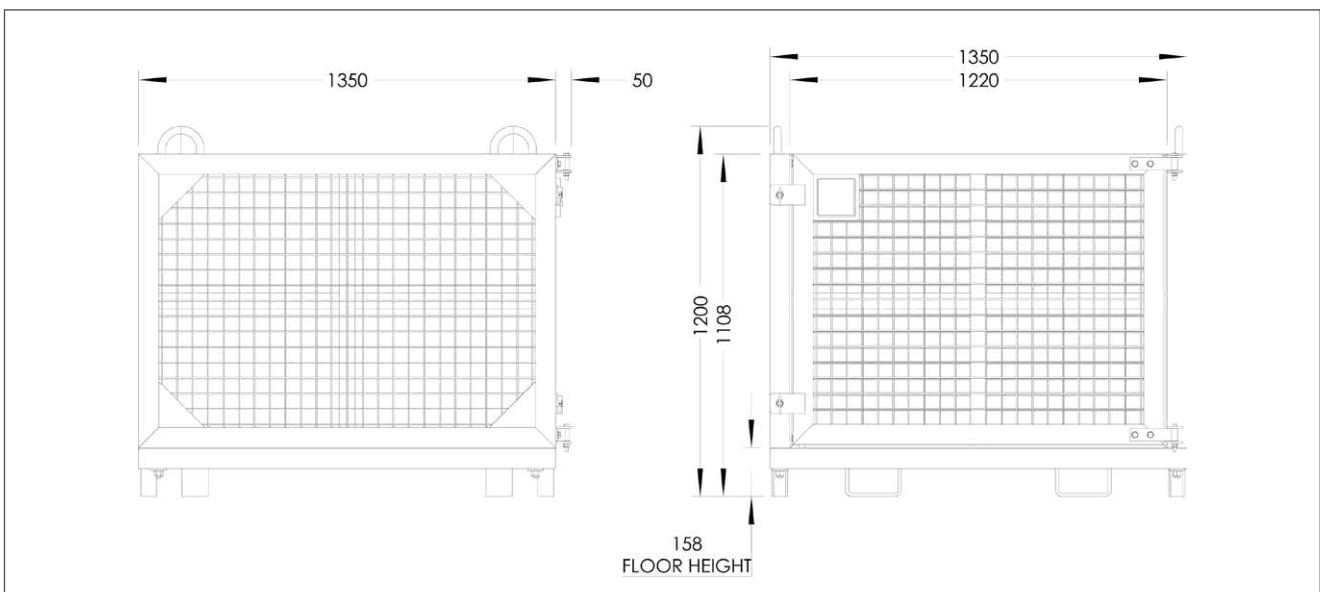

Stacking feet

With optional Lifting Frame
