The type MFBTSH Forward Bin Tipper is ideal for handling and emptying bins in agricultural and manufacturing industries. This Forklift slip-on attachment requires only a single hydraulic function. A purpose built hydraulic sequencing valve eliminates the potential to drop the bin (rotation will not commence until the bin is correctly restrained), while the gentle action of the clamp arms prevents damage to the bins. The standard unit will suit bins up to 1200 mm square.

Non standard size and capacity attachments can be manufactured.

SPECIFICATIONS:

- Working Load Limit (WLL) 1000 kg
- Unit Weight 290 kg
- Load Centre 880 mm
- Pocket Size 155 x 55 mm
- Pocket Centres 540 mm
- Horizontal C of G 600 mm
- Vertical C of G 75 mm
