

DROP BOTTOM STORAGE BINS MWDM160 SPECIFICATIONS

Drop Bottom Mesh Cage offers durable containment with the advantage of releasing contents from the bottom of the unit via a pull-rope release mechanism. The Cage has been manufactured with a strong steel Frame fitted with mesh inside the Cage and a steel framed Drop Bottom base. Ideally suitable for the recycling industry, the Cage can be lifted/transported by either Forklift or Crane. The standard finish on the MWDM160 Drop Bottom Mesh Cage is Zinc Plated.
