

# DROP BOTTOM STORAGE BINS MWDS160 SPECIFICATIONS

Drop Bottom Bin offers durable containment with the advantage of releasing contents from the bottom of the unit via a pull-rope release mechanism. The Bin has been manufactured with a strong steel Frame fitted with sheet metal sides and a steel framed Drop Bottom base. Ideally suitable for the recycling industry, the Bin can be lifted/transported by either Forklift or Crane.

The standard finish on the MWDS160 Drop Bottom Bin is Zinc Plated.
