

# MEGABIN PALLET BIN FEATURES

The MegaBin Pallet Bin is the original Australian bulk bin. Rounded corners and smoother interior surfaces results in less bruising and damage to your produce. Multiple vents in sides and base provide superior air-flow so products cool faster adding valuable shelf life to your produce.

The smooth, non-absorbent surface will not harbour or transfer mould, bacteria or disease carrying organisms. Easy, clear ownership identification with hot foil stamping, sequential numbering and barcoding. Hand-holds are built in for easy lifting and handling of bins. The positive interlocking foot design permits fast and safe stacking in both pallet racking and unit atop of unit. A strong bin cover, tipping bars, liquid bungs, hot-stamping, barcoding and numbering are all available at your request.

## Construction:

- Double wall corner and centre posts
- Two hand holds for lifting
- Rounded internal corners
- Smooth interior surfaces
- Non-absorbent surface
- Multiple vents provide superior air flow

All models are available vented or solid with additional features including hot foil stamping (with custom logos), barcoding, sequential numbering, extended height rackable feet, lids, tipping bars and much more!

## Stacking:

- 5000 kg on level ground in cold storage
- 3800 kg on level ground at temperatures less than 35°C for less than 1 month
- 3400 kg on level ground at temperatures less than 35°C for more than 1 month.

## Materials and Design:

- High Density Polyethylene (HDPE)
- UV Stabilised
- Fully Recyclable
- Food Grade Approved

## Forklift Entry:

- 143 mm opening with patented slide entry
- 90 mm Pallet Jack clearance when empty
- Two hand holds for lifting

## Warranty / Buy Back:

- 3 Year Warranty on wear and tear
- 10 Year Warranty on outdoor weathering
- Sustainability buy back option available
