

NESTING CAGE TROLLEYS SPECIFICATIONS

Unique space saving and large volume transport trolleys!

From This...

To This with Ease!

- Setting up and folding can be done with little and minimal effort.
- Unit folds up neatly and conveniently for storage and nesting.
- The base plate is made from plastic, which reduces noise associated with harder materials. Noise reduction data - 65 db on plastic base compared to 87 db on steel base.
- Painted with a double-coating finish provides superb strength, cleanliness and long-lasting appearance.
- Choose from a wide variety of features and sizes for many applications, including models equipped with a lock, cool insulation cover and weather-proof covers.
- Quality and strong Prestar range that features a 5-year Warranty.
