# The Roust-A-Bout Tackles the Tough Jobs:

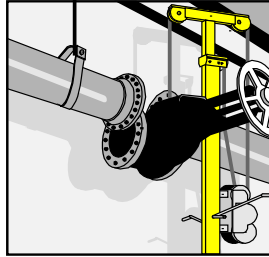

The Roust-A-Bout operates in tight areas that are inaccessible for other lifts.

Used in combination with Adjust-A-Fit, the Roust-A-Bout can move awkward objects for easy placement.

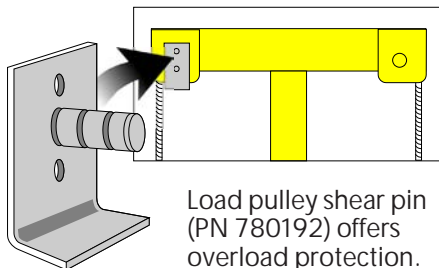

Loads can be lowered below floor level with the Roust-A-Bout's unique design.

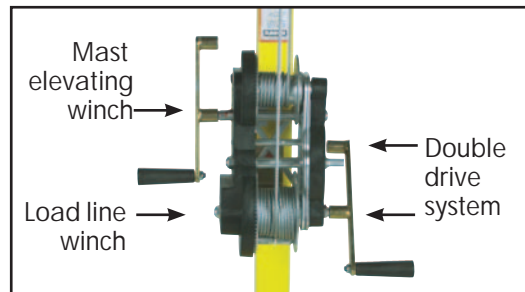

One man can position objects weighing 680 kg with infinite accuracy - up to 25 feet above!

Available in optional galvanised finish!

Load pulley shear pin (PN 780192) offers overload protection. Each Roust-A-Bout comes with a spare for quick, in-field resetting.
