

SILENT PALLET TRUCK PS2082 SPECIFICATIONS

Silent pallet truck: **not only your friend indoors,** but **it also manages** outdoor challenges...

The specially designed wheels of the Silent Pallet Truck make outdoor operations possible - without problems. Metallic chips, small stones and other ground materials do not stick to the wheels or jam inside the tread!

At the same time the special wheels ensure noiseless transportation. The truck is **perfect for** supermarkets and any workplace wanting to ensure their customers a quiet and peaceful shopping atmosphere while the employees transport stock. The silent transport is also advantageous in buildings with both shops and living quarters.

The wheels are also gentle to fine floor surfaces that are often used in customer areas. The Silent Pallet Truck is therefore saving maintenance costs due to wear and damage to flooring such as sandstone. This is an environment- friendly pallet truck with a long operating life!

Technical Features:

Pallet truck, ensuring a silent and smooth handling of many different pallets - also for outdoor transport! Optimum manoeuvrability - inside and outside:

- metallic chips, small stones, etc. do not stick to the wheels
- **compact body** behind the forks
- low truck weight and tight turning angle
- optimum space utilisation in confined areas

Tested to below 60 dBA:

- special soft rubber wheels (both steering and fork wheels)
- minimum friction of all movable parts
- close tolerances

Long operating life and low maintenance costs through:

- strong construction
- tests with up to 46,000 lifts

The special rubber wheels are gentle to the floor.

The hoop skates on the forks ensure an easy fork insertion and withdrawal in/out of pallets.

Ergonomic handle ensures the user a relaxed hold.

Twin load wheels make it very easy to change direction.

The Silent Pallet Truck has a permanent quick lift function.
