

STILLAGE CAGE SPCMH04 SPECIFICATIONS

This multi-use pallet size cage provides protection for your goods in transport and storage. It is designed to suit all warehousing and storage requirements, with the advantage of being quickly dismantled for valuable space saving and transport efficiency

This durable cage can be transported by Forklift or Pallet Trolley and can be stacked up to 4 high when empty and 2 high when loaded. The base is designed with racking locators making it suitable for storage in pallet racks.

The front drop-down gate and rear hinge gate are both removable and can be opened for easy access, even when stacked.

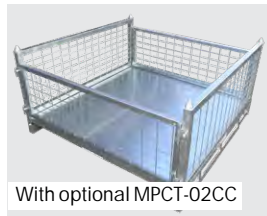

An optional galvanised sheet metal flooring (SPCMF) that fits over the existing mesh base to prevent objects from falling through, is available on request.

Supplied standard as flat-packed, for on site assembly.

Zinc Finish

Pallet racking friendly

With optional MPCT-02CC

Rear hinge gate

Removable front & back gate
