

Platform Steps Folding Fibreglass

The Safety Step Platforms comprise the 450mm or 550mm Wide Deck Platform and Corrosion Proof Platform.

The Australian-made Platform Step is stronger than any other fibreglass ladder on the market, and features a unique design. The Corrosion Proof version is built from fibreglass and stainless steel to withstand the harsh elements.

Features

- 1 **Front safety rail** situated at 900mm above the deck
- 2 **Lightweight and durable yet load rated to 150kgs**
- 3 **Unique construction** allows for quick action set up, **portability**, and easy store
- 4 **Larger deck** allowing greater movement
- 5 **Step plates** for added stability and purchase
- 6 **Equal step distance** to the ground, ensures safe access and egress
