

RIGGING STORAGE RACK SPECIFICATIONS

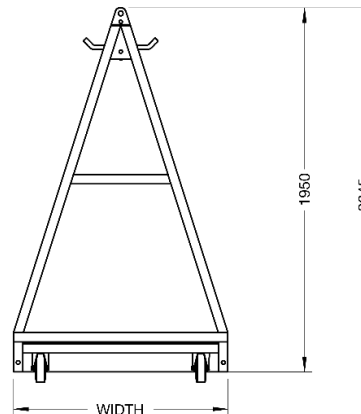

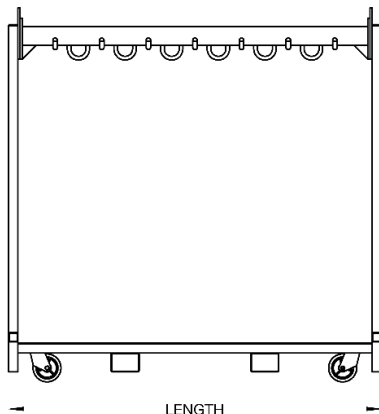

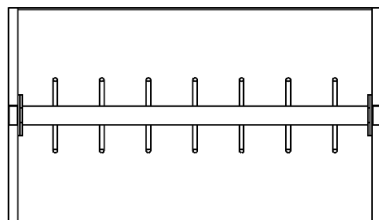

MCNG Rigging Storage Rack is the ideal solution to manage and store rigging equipment such as chains, slings, shackles, hooks and clamps when not in use. This storage rack is designed to help prevent damage and other hazards that may compromise the integrity of your lifting equipment.

With a strong 'A' frame construction for stability, this unit is fitted with hooks to store and organise your equipment. The solid based keeps your rigging equipment off the floor preventing damage. Fork pockets and crane lugs are fitted for transport by forklift or crane. For complete manoeuvrability around the workplace, removable wheels are fitted standard. Enamel paint finish.
